PRESIDENTE: EVIN MANUEL ROSALES A.

ASOCIACION INTEGRAL A LA FAMILIA “JUAN PABLO II” GRANADA, NICARAGUA

In association with Shine A Light

WHO WE ARE

We are a charitable social organization in Granada, Nicaragua with the aim of working together with children, young people and women who do not have financial opportunities. We support these people especially in development of their own skills to contribute to the economic and social development of the country.

WHAT WE DO

Our program focuses attention on the youth of the street, gangs, and children with no opportunities in high risk situations. We also work with other at risk groups including single moms and unemployed families. We provide different programs such as as help with tuition for basic education, educational reinforcement, language courses (English, German), sports, art projects, handicrafts, ethnic education and more. We offer teens and parents workshops for sewing, carpentry, hairdressing or whatever other skills are donated by our volunteers. We also attend to other needs of our students such as medical assistance, food, and psychological attention.

WHERE WE ARE

Our school is located in a community on the outskirts of Granada in an extremely challenged area.

NICARAGUA FACTS:

Nicaragua is the second poorest country in the Western Hemisphere

About 46% of the population live on less than \$1.15/day

50% of the population lives in poverty, with 40% of those falling below the extreme poverty line

Because of this poverty particularly children under 14 years of age suffer

14% of the children suffer from malnutrition, mainly children under five years old

24% of the population can neither read nor write, many families do not have the possibility to buy basic materials for school

OUR NEEDS:

ECONOMIC:

Our organization is run solely by donations and we have many needs, particularly economic

VOLUNTEERS:

We need volunteers that have time and a desire to share their professional and artistic talents; we need people that can teach computer skills, cooking, fashion design, music lessons or any other skill that can be taught and utilized in Nicaragua; we also need volunteers that can help teach sports to the youth; Volunteer requirements include:

- Speak Spanish and English
- Be able to pay your travel expenses
- Be able to volunteer for 3 months minimum
- Be able to teach, guide and help our students by developing an area of study; always best to bring own equipment (i.e. English, Computers, Music , Cooking, Sewing)
- Be willing to interchange cultures and get to know our country and how we do things; help to plan events and bring resources to help educate

MATERIALS:

We accept donations of any machines, computers, etc for all workshops.

FUTURE PLANS:

Currently we work with 70 children from the local neighborhood. There are many more that would like to come but there is not enough space so they are denied. We are currently constructing a new school building with the help of generous donations from people that have come to know our program. We are challenged to complete this project and have entered into the second of three phases of construction. We lack all funding for the third phase.

DONATIONS:

We are seeking donations to complete Phase III of construction for the school.

WHAT WE HAVE ACCOMPLISHED SO FAR

Once the Juan Pablo II Center is constructed, we will perform the appropriate formalities with the Republic's government so that, apart from serving as the main center for the Juan Pablo II Project, it can also serve a greater amount of children with limitations and in poverty in regards to elementary formal education. Every year in Nicaragua close to a million children do not have access to a school due to poverty. Therefore, this center will serve numerous children by providing basic elementary education to the local community for years to come.

Phase I of Construction

Phase I of Construction

Phase I of Construction

Ready to Enter Phase II of Construction

**CONSTRUCTION OF CENTRO JUAN PABLO II
GRANADA, NICARAGUA C.A**

Phase I - Work Completed:

- Construction of septic tank
 - Plumbing for bathroom
 - Toilets and sinks

	Total			\$20,095
	GRAND TOTAL			\$34,443

The Students We Are Helping

The Women and Children We Are Helping

Dear Friends,

I am convinced that in a country that exists in a state of absolute poverty we will only be able to move forward and develop by making basic education available to everyone. An effective and efficient education that promotes values, ethics, a quality education that promotes new methods, new expressions, and leads to a sustainable economic growth is what we are working toward one small step at a time.

We invite you, in solidarity with our project, to be a supporter of what we are developing. We ask you to share in our dream which is on its way to becoming reality with the construction of this school for some of the most impoverished children in our area. Help us to develop Nicaragua into a country that offers development and social justice by providing basic educational needs.

There is no Utopia but together we can make things happen to turn great ideas into reality and set examples in education that will hopefully inspire our government will look to us as role models. God Bless our Nicaragua and the people that are able to help us in this cause to make a difference and provide our children with a fighting chance.

**Evin Manuel Rosales Avilez
President**

If you'd like to make a tax free donation with 100% of your proceeds going toward this project please go to: shinealight.org and when you make your donation note Nicaragua. You can also make a check out to Shine A Light and mail to:
